

# WATERTECHBOOTCAMP

RESILIENCE & RECOVERY OF UKRAINE

BERLIN 19 - 22 FEBRUARY 2024

## WHY NOW

Ukraine's rural and urban water infrastructure is in need of rethinking and upgrading.

**Mykolaiv Water Hub** together with its partners gathers decision-makers from water utilities, representatives of the tech companies and startups to discuss best available technologies, funding opportunities and creation of **Water Innovation Lab** to support critical infrastructure resilience and recovery of the Southern region of Ukraine.

## WHAT'S THE PLAN

On **February 19, 2024** we will start with panel discussion and networking at Café Kyiv Conference.

**February 20, 2024** is dedicated to the best available technologies for water and wastewater treatment, irrigation and energy efficiency.

**February 21, 2024** - we will discuss possible funding mechanisms.

**February 22, 2024** - Ukrainian participants are invited to the city of Hannover by hannoverimpuls.

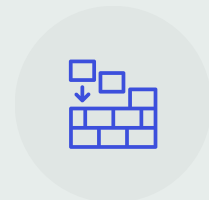

*Please see the Draft Programme on page 2.*

## OUR GOALS

### Connect

7 **water utilities** from Ukraine, 5 **corporates**, 10 **startups** and 6 Ukrainian and German **universities** working on WaterTech will meet in Berlin.

### Rebuild

Mykolaiv is located in the **South of Ukraine**, on two rivers with direct access to Black Sea. It creates an opportunity to boost the reconstruction of the region with the main focus on **water, energy and food industries**.
